Dear Friends

On behalf of the Scientific, Organising and Program Committees, I would like to thank you for your involvement for promoting the congress and for most of you to support the venue of some speakers.

- You have already received more than 120 abstracts. The dead line is now finished and the abstracts have been reviewed. Authors will get soon their acceptance (for oral or poster communication)
- Helen Leonard and the Program and Scientific Committees chaired by Philippe Evrard have performed a great task to build a high level program
- All experts around the world working with us since a long will certainly come to the congress

I would like to share with you at this step the preliminary program. We thank you to promote it as largely as you can to have a large audience.

Please do your best that your usual exhibitors could have a booth in our exhibition space.

Please make all registration as soon as possible.

An important parents' workshop on International Collaboration for parents' associations is scheduled. Please send to me your suggestions to organise it if you think that is a good idea. Experts, researchers have scheduled a session on International Collaboration; we have to be prepared for this important perspective. This congress is an excellent example of international collaboration.

With the short remaining time before the congress, I would suggest a simple contact by email via Leila or myself for any question.

Setting up such an event is a great moment with pleasure and all kind of difficulties.

Please register, book your hotel as soon as possible.

Again best thanks to "make it happen"

Warmest regards

"Amiti s"

Gerard

President of the Organising Committee
